An Intro to PFSAI

ComplyBook's on-demand **PFSAI (Preventive Food Safety Audit and Inspection)** services help clients to have their food outlets inspected and audited in accordance with Food Safety Standards and Guidelines outlined for specific category Food Business Operators (FBOs).

Many clients have dedicated in-house teams to manage compliance, but effective results are not delivered without timely status updates, periodic alerts, and data synchronisation. This, in turn, leads to high risk, i.e. penalties and loss of operational efficiency at a later stage.

Thus, adding Expert Consultation and Tracking of your existing process is critical for future growth and effective monitoring of your key resources.
